USDA / Aphis Statement

To whom it may concern

Materials being shipped from our side, including but not being limited to ceramic slurries, LithaSol solvents and LithaPrime photocuring primers for additive ceramic manufacturing, are not subject to USDA and APHIS since:

- They are solely based on synthetic materials
- They do not contain soil
- They do not contain any materials from animal, plant or any other organism/vector origin
- None of the mentioned sources is involved during the manufacturing process
- The production environment is kept free of any of the mentioned sources that could expose a potential pest and disease risk to plants and animals

Any questions related to this topic may be addressed to regulatory@lithoz.com
